Well you don't know my name but you sure know me,
I work in New York, Boston and D.C.
I used to be a typist, a secretary,
but now I enter data on a VDT
I tell you it's not like they show on TV,
it's hell to earn a living on a VDT

You won't hear me say that typing was fun
but at least I could see the work that I'd done
And the boss couldn't test my productivity
by punching up my number on his VDT
I swear the screen is staring back at me,
it's hell to earn a living on a VDT

My supervisor says it's safe for me,
she shows me a study done at MIT
you can see what it's done to my eyes,
heaven only knows what it's doing inside
I tell you it's not like I thought it would be,
it's hell to earn a living on a VDT

When you think of union what comes to your mind,
a guy driving a truck or working the line
but if you ever spent hours behind a VDT,
you know no one needs a union more than me
I tell you its not like I thought it would be,
it's hell to earn a living on a VDT.
